March 5, 2013

The Spaulding Group's team has a deep understanding of the GIPS Standards. Their in-depth analysis of our firm allows us to confidently present our claim of GIPS compliance to our prospects. We have worked with The Spaulding Group for the past three years, after moving to them from another provider. This has proved to be a great decision, as their level of expertise, service, and added value is second to none. Their onsite, annual approach to verification allows them to do a thorough review while not disrupting our normal activities. Rather than dreading the verification process, we now look forward to learning something every year from the experts. I strongly recommend The Spaulding Group to any firm looking for a verifier.

A handwritten signature in cursive script that reads "Sonia Rosenbaum".
