Sub-Saharan Capital Group LP Testimonial

To whom it may concern:

We thoroughly enjoyed the experience of working with Spaulding. They made the effort to fly out to Africa in order to properly understand our business and to professionally verify our performance on the ground.

Spaulding have helped our company to adhere to the GIPS requirements and standards that are respected by investors and they will hopefully help us to maintain these standards in the future.

Thank you Spaulding.

From the Sub-Saharan Capital Group LP team
